## MAGNETIC KILL SWITCH

REF. 171- 181

*Champions technology  
and safety at hand*

### KILL SWITCH

#### Purpose

Our new REF. 171 - 181 integrates a magnetic central **kill switch lanyard** and up to 2 extra push-buttons or 2 led or smart led tell-tales.

REF. 171 - 181 is an essential command device for vehicles to ensure the safety of the rider and pedestrians by avoiding to have an accelerated and uncontrolled vehicle.

Its use is recommended by most European Federations as well as many of the international championships.

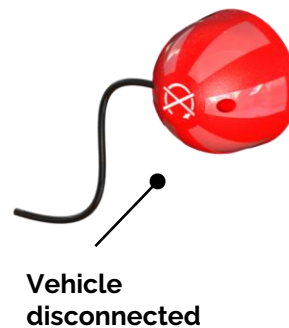

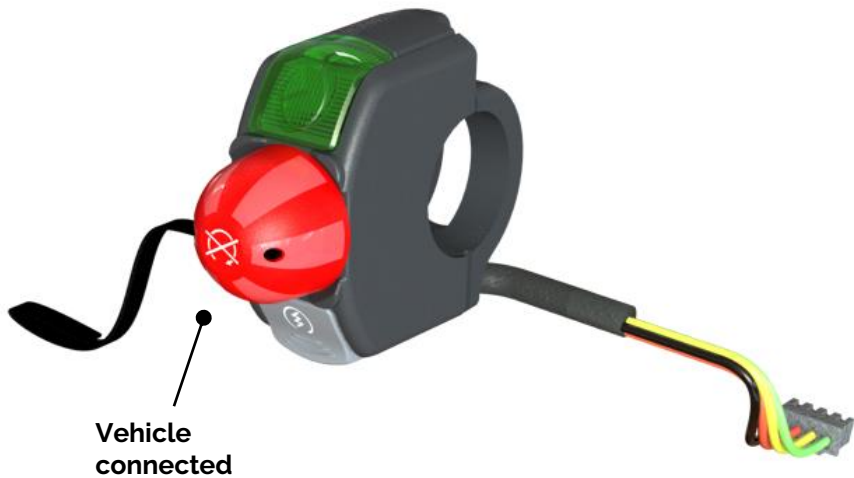

His small dimensions and the several customization options allows you to adapt it to any need or vehicle.

### CENTRAL START/STOP VERSION

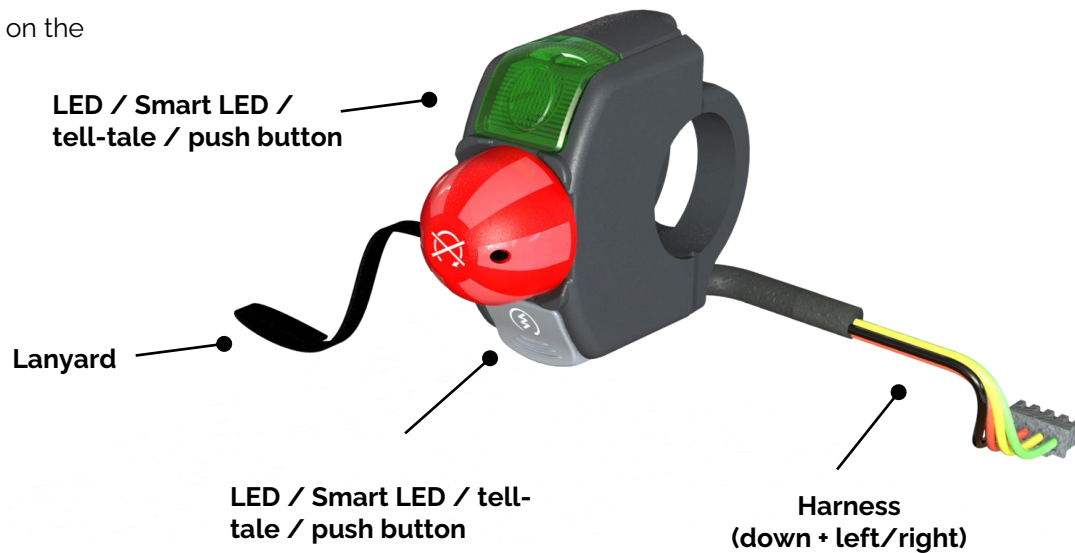

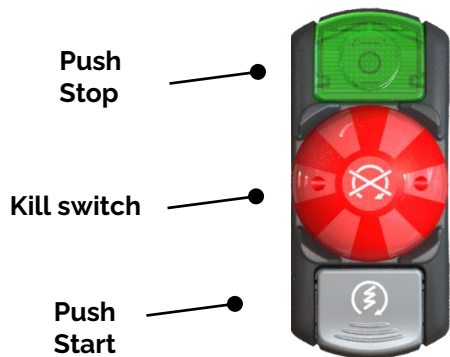

- Two push-buttons or tell-tales
- Central kill switch lanyard
- Kill switch can be mounted left or right on the handlebar.

### CENTRAL START/STOP VERSION
